Subject: Bargaining Streams and 6 June 2023

Dear IWG members

Yesterday I sent to you the Statement of Principles upon which the FWC will rely to determine whether an agreement has been genuinely agreed to.

I have also received today further explanatory information which the President of the FWC has asked to pass onto you.

I have attached:

1. A matrix summary similar to the earlier APTIA Advisory on multiple bargaining. This matrix is the official FWC description of the different forms of enterprise bargaining and how the bargaining processes differ from each other.
2. A simple diagram which highlights when the new BOOT arrangements will apply along with the statement of principles.

Regards
